OBJECTIVE

Creative web developer looking for a position where I can enhance my knowledge of design principles and grow with the organization, with a background in HTML, CSS3, and JavaScript.

SKILLS & ABILITIES

- Communication : Ability to communicate effectively with others, and present ideas clearly to listeners.
- Computer skills : Excel, Word, PowerPoint, Internet Research.
- Teamwork : I worked effectively and collaboratively with my team on the graduation project. I also worked as a part of a team during training at the Jordan Computer Society.
- Time management : Take responsibility for distributing the project assignments over the time period that is available to submit the graduation project.
- Problem-Solving: The ability to understand the problem, analyze it and identify its causes to reach the most appropriate solution

EXPERIENCE

2022\9 - 2022\11

Computer Science teacher | Dhat an-Nitaqayn school.

Teaching computer science for the eleventh, ninth and eighth grades focusing on developing students' logical and intellectual skills, using different teaching strategies, and assigning students to do research that increases their technical knowledge.

2021\8 - 2021\9

Key Projects: Working in a team of five software engineering students to create a web page that provides e-copies of the IT College books, I built the front-end for the web page and I created the diagrams for the project.

EDUCATION

2018 - 2022 | Al-Balqa Applied University
Bachelor of Software Engineering
GPA: 3.36

CERTIFICATIONS

2021\9 - 2021\12 | Jordan Computer Society
